

## Technical Data-Sheet

Issue: 02/24

### [elumeg-Lamp connection cables](#)

#### Construction

Conductor	:	Stranded E-Copper, bare or tinned
Cross-section	:	0,14 ... 50,0 mm <sup>2</sup>
Core insulation	:	PVC (other plastic insulations are possible)
Sheath	:	PVC (other plastic insulations are possible) A delivery without the sheath is possible too (only twisted cores).
Textile braid	:	Polyester yarn
Standard colours	:	White, red, black, blue, yellow, green, brown, violet, grey, orange Many other colors are deliverable, neon colors and combinations of this colors.

#### Thermal properties

Temperature range	:	- 10 ... 50°C (PVC)
-------------------	---	---------------------

#### Electrical properties

Operating voltage	:	dependent on the type of the cable
-------------------	---	------------------------------------
